## Executive Summary

✗ **No consent modal detected.** The site sets cookies without requesting consent. ✓ No non-essential cookie set before interaction. ✓ Non-essential cookies are correctly removed after rejection. ✓ No tracker requests before consent.

1 critical issue(s) and 1 warning(s) identified.

### 1. Consent Modal

No consent modal detected on the page.

### 2. Dark Patterns and Detected Issues

✗ **Critical issues**

No cookie consent modal detected

A consent mechanism is required before depositing non-essential cookies

## ⚠️ Warnings

### No privacy policy link found on the page

A privacy policy must be accessible from every page (GDPR Art. 13)

## 3. Cookies Set Before Any Interaction

Name	Domain	Category	Expiry	Consent required
_cf_bm	.npmjs.com	unknown	< 1 day	<input checked="" type="checkbox"/> No
_cfuvvid	.npmjs.com	unknown	Session	<input checked="" type="checkbox"/> No

## 4. Cookies After Consent Rejection

No non-essential cookie detected after rejection.

*No cookies detected.*

## 5. Cookies After Consent Acceptance

*No cookies detected.*

## 6. Network Requests — Detected Trackers

*No known network tracker detected.*

## 7. Recommendations

1. **Deploy a CMP solution** (e.g. Axeptio, Didomi, OneTrust, Cookiebot) that displays a consent modal before any non-essential cookie.
2. **Add a "Reject all" button** at the first layer of the modal, requiring no more clicks than "Accept all" (CNIL 2022).

**3. Complete the modal information:** purposes, identity of sub-processors, retention period, right to withdraw.

## Scan Errors and Warnings

-  No reject button found — could not test rejection flow
-  No accept button found — could not test acceptance flow

## Legal References

- **RGPD Art. 7** — Conditions for consent
  - **RGPD Recital 32** — Consent must result from an unambiguous positive action
